Headteacher: Dr Helen Davey

24th January 2018

Dear Y4 Parents and Carers

In PSHE next half term, Year 4 will be covering:

- Animal and human life cycles: why we grow and change
- What is puberty and the basic differences between adults and children
- How a baby grows in the womb
- Menstruation as part of the human life cycle

This content is designed to complement and widen children's learning about humans in science, develop their confidence and prepare them for the future.

Year 4 will **not** be covering conception or some of the less relevant parts of puberty as these remain part of the Year 5/6 PSHE curriculum.

We would like to invite parents and carers to view the resources we will be using and ask any questions. There will be a parents' meeting held at **6pm on Wednesday 7th February in Maple classroom**. If you are unable to attend this meeting and would like to see the resources, please speak to your class teachers and they will be happy to arrange a more suitable time.

If you feel that your child may have additional needs or require additional support in this area of PSHE, please speak to your class teachers.

Regards

Mr Hughes, Mrs Williamson, Miss Winter and Miss Kirby
